

## Our New Address

Pacific Urethanes has moved to a new home.  
**18 Malibu Circuit, Carrum Downs Victoria 3207**

We invite you to visit us at our new location.

## Celebrating 5 years of Operations

Pacific Urethanes is also celebrating 5 years of operations. Starting from a Greenfield operation on 1 July 2008, we are now supplying over 100 customers in Australia, New Zealand and Asia.

Our new site has been significantly upgraded to meet with the increasing demand and technical requirements of our customer base.

## Success at NMW 2013

Pacific Urethanes' exhibit at the recent National Manufacturing Week exhibition proved a huge success. Together with our partners we met many existing customers and made contact with a number of potential customers.

NMW was held in Melbourne together with Austech - Australia's leading trade show for precision tools and manufacturing equipment.

The show attracted almost 12,000 visitors which featured 300 stands and defied the current economic climate by the strong quality leads which were generated.

## Impianti OMS – Our Newest Partner

Pacific Urethanes has been appointed the agent for Impianti OMS in Australia and New Zealand. Responsible for sales of new machines Pacific Urethanes also carries a range of spare parts.

Impianti OMS is an Italian based company that is one of the world's leading manufacturers of polyurethane dispensing machines and manufacturing plants. Established in 1969 the company has grown to over 120 employees with exports accounting for over 80% of annual turnover. Their product range covers low and high pressure machines, domestic and commercial refrigeration plants, discontinuous and continuous panel plants, automotive plants, elastomer machines and slabstock/batchblock plants.

## Introducing our Staff Members

Our people are the core of our business.

In our first edition of PU News we are pleased to introduce Rob Pullen.

Rob is responsible for customer service and supply chain. His enthusiasm for the job is well known to all the people with whom he has contact.
